

The steps that you should perform to use the HES e-toolkit are the following:

- 1) Login to the toolkit with your account at <http://www.hes-unwto.org/HES/Default.asp?LangID=1&AppID=ToolBox>
- 2) After login you should have the following screen

The screenshot shows the 'Hotel energy calculator' interface. At the top, the logo 'Hotelenergysolutions.net' is displayed with the tagline 'Increasing the competitiveness & sustainability of the EU accommodation sector'. To the right is the 'HOTEL ENERGY SOLUTIONS' logo. A green navigation bar contains links for 'Hotel energy calculator - Home', 'About', 'Application components', and 'Resources'. On the right side of this bar are icons for email, a red cross, and a language dropdown set to 'English'. Below the navigation bar, the page title 'Hotel energy calculator' is shown. To the right of the title is a '+ Project' button and links for 'My account', 'My projects', 'User: [input]', and 'Log Out'. The main content area features a 'My projects' section with a message: 'You haven't created any project yet. [Create your first project!](#)'. To the left of this section is an icon of three books (green, red, blue). Below the icon is an 'Application message' dated 06/12/2012, stating: 'There are no current issues affecting the operation of the HES e-toolkit. Thank you for trusting the HES e-toolkit.' At the bottom of the page, a green bar contains the text 'Application components Energy related report - Energy solutions - Carbon footprint - Learn more?'. Below this bar is a navigation menu with links: 'Hotel energy calculator - Home | About | Resources | Support | Contact | Issues tracking | Legal Disclaimer'. The footer contains logos for ADENE, EREC, ihra, UNEP, UNWTO, and 'Supported by INTELLIGENT ENERGY EUROPE' with the European Union flag. The version number 'Version v13.01.000' and release date 'Release Date: 17/08/2012' are also present.

- 3) Click on “Create your first project” to proceed.
- 4) The questionnaire will appear and then you should start answering all the questions

Hotel energy calculator + Project [My account](#) | [My projects](#) | User: test_hotel | [Log Out](#)

Current project: carbon footprint test

Carbon footprint

Your hotel creates **13476,42 Kgs of CO₂ per year**

You emit:

13476,42 CO ₂ Kgs
3457,02 Electricity year specific CO ₂ emission
10019,4 Total CO ₂ emissions produced by fossil fuels
0 Total CO ₂ emissions produced by biomass products fuels
0 Total CO ₂ emissions produced by other renewable energies

Congratulations!

You have just undertaken the first step toward carbon emissions reduction: calculating your CO₂ emissions. Want to know more about how to reduce further your carbon footprint? [Click here](#)
