Szombathely

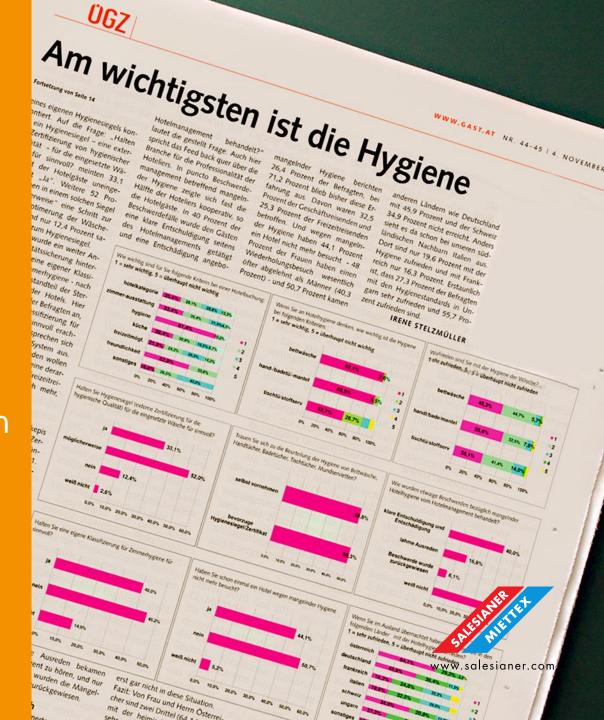

- Capacity/ hour: 1.350 kg
- 19-20 tons/ day
- 2 shifts
- 100 employees
- Services also for Austrian hotel market

Hygiene counts most in the customer satisfaction

 Results of a recent study among Austrian

hotel guests

Hygiene counts most

- Hygiene is most important criterion for 81% of hotel bookings
- 53 % personnel friendliness

Trend: from cleanliness to hygiene!

- Global spread of diseases (25.000 flights a day with millions of passengers worldwide)
- Infected people after landing come directly to the hotel

Trend: from cleanliness to hygiene!

What misses this open air Indian laundry?

- Strict partition of clean and dirty laundry rooms
- Laundry machines with hygiene barrier
- Chemo-thermical washing-process (60-70° C,10 min.)

Types of laundry services

 0% outsourcing: textile purchase and on premises laundry

 50% outsourcing: textile purchase and external laundry service

 100% outsourcing: textile rental service

0% outsourcing:

Textile purchase and on premises laundry

Own textile purchase

- Advantages: flexibility in choosing material, models and colours
- Disadvantages: difficulties in the re-ordering process, especially low quantities

Motto: "I am too poor to buy cheap!"

Calculation of yearly linen rotation

(City hotel Budapest, example: Bed sheet)

• 70 % occupancy rate: 365 x 70% \rightarrow 255 times is the room occupied per year ("light on")

• Bed - night occupancy: 1.6 nights \rightarrow room is rented 159 times per year to different people

• Double occupancy (single beds) 1.2 from a maximum of 2: every bed is occupied 0.6 times per night \rightarrow demand of 95 sheets per bed and year

• Par stock: 4,5 per bed; 95 : 4,5 = **21 uses per year**

• (Other impacts: improper use, abuse, theft, rewashes, mechanical damage, loss of colour ...)

Calculation of yearly linen rotation

(City hotel Budapest, example: Bed sheet)

Bed linen rotation: 20-25 times / year Lifetime: average 80 cycles \rightarrow at least 3 years (damaged and lost pieces included)

Towels rotation: 25-30 times / year Lifetime: average 70 cycles \rightarrow at least 2 years (damaged and lost pieces included)

Right linen purchase?

Best balance between quality and price / real max. washing

cycles!!

Textile purchase and on premises laundry

On premises laundry- cost/ benefits model from Austria

On premises laundry Hygiene awareness

- Dutch cruiser July 2012
- Norovirus spread

• Cruiser laundry- no disinfected laundry programs

50% outsourcing:

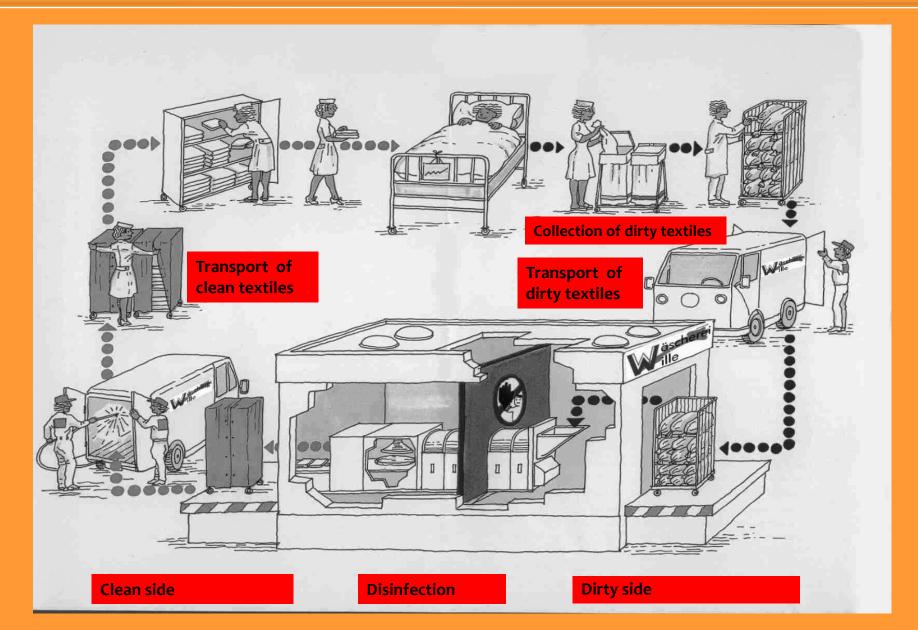

Textile purchase and external laundry Criteria for choosing the best outsourced laundry- hygiene

- Linen disinfection at min 70 °C
- Separation wall between clean and dirty side
- Laundry machines with hygienic barrier
- Clean disinfected delivery cars and linen trolleys

External laundry

50% outsourcing:

Textile purchase and external laundry Criteria for choosing the best outsourced laundry - financial

• Lifetime - water treatment station, mild washing processes

- Price
- Customer service
- Logistics
- Solvency/ Reliability

Does the perfect laundry exist?

NO, as well as no perfect public transport service or flight company...

BUT: over 98% delivery accuracy should be expected!!

Outsourcing-guru Michael F. Corbett:

"Outsourcing combines the expertise of the hotel operator with the expertise and capabilities of the service provider. This is a powerful tool in todays competitive market."

"The loner adds, the one who cooperates with the right partners multiplies."

Important criteria for textile rental services:

- No investment needed
- Concentration on core business
- Turning fix costs into variable transparent costs
- Responsibility transfer in regard to hygiene and linen availability

100% outsourcing:

Textile rental services

Criteria for choosing the best textile rental supplier

- Linen hygiene
- Long term linen model availability
- Accurate linen counting
- Perfect logistics
- Agreement regarding lost and damaged pieces

Hygiene and sustainability guarantee

A powerful customer loyalty tool for your guests...
